

# “Honestly, I looked at every spray booth. I shopped around thoroughly and believe Blowtherm was the best decision.”

“I’m a straight shooter and I’m not afraid to say if I bought the wrong product. The fact is, I bought my first Blowtherm spray booth and prep station over 17 years ago. We’ve run them hard and they still continue to perform great. That’s why I just recently purchased an additional Blowtherm spray booth.”

“I did my homework before purchasing the second booth. After looking at nearly every product on the market today, there was no comparison. This was the best value for the dollar.”

“Blowtherm believes in new technology. The new booth ramps up faster, heats more thoroughly and is more energy efficient.”

“Marksman Auto Body is a company that cares about quality of workmanship and humbly prides itself on making sure our customers come first.”

“I bought the Blowtherm booth because I’m a big fan of doing the right thing. And, I plan on working these hard for a long time.”
