

“We chose BLOWTHERM based on the quality of construction, quality of service, and the footprint they have created as the premier manufacturer of SPRAY BOOTH SYSTEMS.”

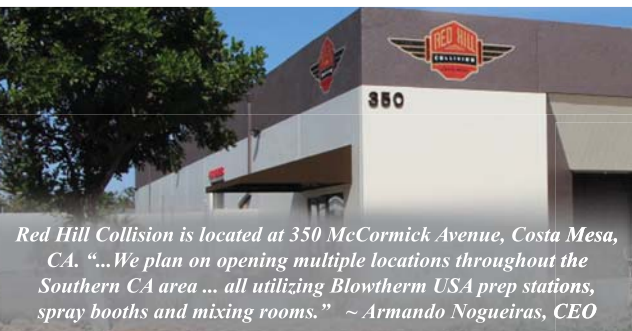

*Christian Nogueiras,
President, Red Hill Collision*

*Armando Nogueiras, CEO,
Red Hill Collision*

“There are a vast array of benefits we will experience as a result of choosing Blowtherm USA, however, the most prominent of these benefits would have to be efficiency, technology, and service. Most spray booth manufacturers do not update and change technologies as regularly as we would like... with Blowtherm we can rest assured that we will always be offered the latest and greatest within the industry.”

“Most collision facilities suffer a production bottleneck in the paint department... given our custom designed, obstruction free triple heated preps, we can maximize production efficiency on a daily basis.”

*~ Christian Nogueiras, President, Red Hill Collision
Costa Mesa, CA*

Red Hill Collision is located at 350 McCormick Avenue, Costa Mesa, CA. “...We plan on opening multiple locations throughout the Southern CA area ... all utilizing Blowtherm USA prep stations, spray booths and mixing rooms.” ~ Armando Nogueiras, CEO

Red Hill Collision is currently running a Blowtherm drive-thru heated down-draft spray booth equipped with optional Air Speed movement for faster drying. They are utilizing three (triple) Blowtherm heated prep stations along with a Blowtherm mixing room. All systems were provided by Eurotech, the exclusive Blowtherm distributor of Southern California.

We don't have to tell you the advantages of using Blowtherm ... our customers say it all.
