

MONROE'S COLLISION HAS BEEN ABLE TO PAINT 12-15 MORE VEHICLES MONTHLY SINCE ACQUIRING ITS BLOWTHERM BOOTHS

"These booths are making our lives much easier because their flash-off times are better than I've ever seen. We never require additional air movement and the finished product is consistently top-notch. We have 10 painters and all of them have told us that the Blowtherm USA booths have helped them to do a better job, which is what you always want from any piece of equipment."

Robert Muck, Monroe's
Collision Center, Inc. GM
