“The fact is, I know a lot about spray booths and have not only seen but used many brands. For the price of this booth, I definitely got the best value in **quality** and **performance** for our dollar.”

“This Blowtherm booth has proven itself in a very short time due to energy efficiency (*saving on our natural gas bill*) because the burner doesn’t fire up as often in the bake/cure cycle as other booths.”

“We consistently have cleaner paint jobs. And, we do not experience cold spots - which saves us money.”

“I’ve already had a bad experience with cheaper, poorly constructed booths. That’s why I did my research and chose Blowtherm.”  
~ Al Jimmis

**DOES YOUR SPRAY BOOTH HAVE DOORS THAT LOOK LIKE THIS AFTER ONLY 8 YEARS?**
